ESSENTIAL COURSE

The Essential Course is a basic start to using the techniques of Piezoelectric Surgery in maxillo-facial surgery and in the dental profession. The program allows you to acquire theoretical and practical skills with the ability to use Piezosurgery® technology.

During the course, ample time is given to a hands-on approach until the participant reaches the required learning curve for each cutting technique. After this is achieved, the participants will come to understand the clinical benefits of each of the several techniques.

TOMASO VERCELLOTTI

Tomaso Vercellotti graduated in Medicine and Surgery cum laude in 1979 and specialized in Odontostomatology at University of Studies of Genoa in 1984

Honorary Professor at UCL Eastman Dental Institute of London

Visiting Professor in many Italian and International Universities

Active member: AO, ICOI, EAO, SIdP (Italian Society of Periodontology)

International Speaker: AO, EAO, AAP, NYU, USC, ICOI

Prof. Vercellotti is the 2005 recipient of the Andi Award from the Italian Dental Association for scientific and cultural merit

Prof. Vercellotti is the inventor of Piezoelectric Bone Surgery

He authored the first scientific clinical articles on Piezoelectric Bone Surgery, new surgical techniques and two chapters on the Piezoelectric Sinus Lift procedure in two books

He is the founder of Piezoelectric Bone Surgery Academy for Advanced Surgical Studies, whose goal to teach is the Piezoelectric Bone Surgery and to offer continuing educational support to clinicians

Prof. Vercellotti maintains a private practice limited to Periodontology and Implantology in Genova (Italy)

He is dedicated, for over 25 years, to clinical education and the rehabilitation of complex cases

CLAUDI STACCHI

Born in Gorizia (Italy) in 1964. Graduated in Dentistry (DDS) and specialized in Oral Surgery (MSc) at University of Trieste (Italy).

Professor in Oral Implantology at the School of Dentistry and at the Master Program in Oral Surgery at University of Trieste since 2007.

Active founding member of International Piezosurgery Academy, active member of the Academy of Osseointegration, member of ITI (International Team for Implantology), member of Italian Society of Osseointegrated Implantology (SIO) and of Italian Society of Oral Surgery and Implantology (SICOI).

Ad hoc reviewer of the International Journal of Periodontics and Restorative Dentistry and of the Journal of Oral Implantology.

Author of several publications on indexed journals and speaker at Italian and international congresses on oral surgery and implantology topics.

PROGRAM ESSENTIAL COURSE

8.30 Registration

9.00 Scientific basics of piezoelectric bone cutting;
Cutting characteristics of bone surgery inserts:
manual, motor driven and ultrasonic;
Clinical and histological characteristics of the piezoelectric cut.

10.30 Coffee Break

11.00 Presentation of piezoelectric inserts and introduction to hands-on.

11.30 Clinical applications of piezoelectric surgery in:
- oral surgery
- extraction surgery
- implant surgery
- periodontal surgery
- endodontic piezoelectrical surgery
- ortodontical surgery

13.00 Lunch

14.00 Practical excercises on animal bones and eggs.
During the excercises the following techniques will be trained:
osteoplasty, osteotomy and ridge expansion, bone block grafting,
corticotomy and implant site preparation.

16.00 Coffee Break

16.30 Discussion with the speakers

17.30 Endo of course

NB: During the practical excercises the participants are grouped and the trials are performed rotative at different stations. Every participant excercises the techniques following his own learning curve until perfection.

It's suggested to use your magnifying spectacle

Registration Form ESSENTIAL COURSE 2014

I will participate to

Saturday, November 15th 2014 Course in English
Milan, Auditorium San Paolo, Via Giotto 36 (cod. 1591 – E)

As: **IPA Member** € . 350,00 **Not IPA Member** € . 400,00 **Complimentary**
